

The benefits of becoming a Givology partner are multifold - we open up a substantial new source of funding for your operations, spread awareness about your organization, and aid in the process of social impact monitoring and analysis. Since we have access to a broad base of Internet donors, your organization can benefit from our P2P platform and numerous marketing and fundraising activities. In addition, we provide translation support.

Givology partner organizations are the engines of our field operations. In return for our financial support, we depend on you to deliver funds to students and schools, as well as monitor progress and provide periodic updates. We welcome all interested parties to submit the following application for review. If you have any questions regarding the application process or our partnerships in general, please feel free to contact Joyce Meng at joyce.meng@givology.org. Thank you for your interest in partnering with Givology.
